

I am very pleased that I no longer receive telemarketing calls since adding my name to the list of participants in our State's no-call program. Let me just say that telemarketers who claimed to work for the phone company trying to sell you a telemarketing blocking process were some of the worst offenders. I really felt like I was being blackmailed into accepting the phone companies services. Then I added my name to the no call list in our State and I no longer receive those annoying calls. Please do not allow anyone to be exempt from this law. When I am interested in a service or product, I will seek it out and purchase it. Perhaps these companies would be better off to put the same money that they put in telemarketing into advertisement or price reduction to sell their products or services. Thank you very much for taking the time to read this.
